Verizon Wireless Calling Plan Optional Features

Calling Plans and Associated Charges: Government Subscribers may activate Wireless Service on the calling plans included with this Agreement, as well as eligible Verizon Wireless consumer/retail calling plans, subject to the terms of this Agreement. On Family SharePlan® calling plans, monthly access fee discounts apply only to the primary line of service. Subscribers may take advantage of promotions or purchase Equipment at Government pricing, but this may require a Line Term extension after initial activation. Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access and any activation fees are payable in advance and will not be refunded after activation of the Wireless Service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber first presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call otherwise disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free; however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on calling plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the calling plan's rate and coverage area, unless otherwise specified in the calling plan.

Customer's Cell Phone Number and Caller ID: Verizon Wireless will assign one Mobile Telephone Number ("MTN") to each subscriber line. Other than as required to port an MTN, Customer does not have any property right in the MTN and Verizon Wireless may change, reassign, or eliminate an MTN upon reasonable notice to Customer under certain circumstances, including fraud prevention, area code changes and regulatory or statutory law enforcement requirements.

Unlimited Messaging: Unlimited Messaging is included with the Talk & Text Plans, and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless

customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. Messaging bundle benefits do not apply to international messages.

Friends & Family: Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide Family SharePlans with 1400 minutes or more, subscribers can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

Nationwide for Business: Sharing Option is for voice Anytime Minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Verizon Wireless reserves the right to remove the Share Option from all subscribers if the 5 Government Subscriber minimum is not met at any time. Each sharing subscriber's unused Anytime Minutes will pass to other sharing subscribers that have exceeded their Anytime Minutes during the same monthly billing period (Mobile to Mobile Calling minutes and Night and Weekend minutes do not share). Each sharing subscriber's Monthly Anytime Allowance Minutes apply first to that line. Unused Monthly Anytime Minutes are then shared with other sharing subscribers that have exceeded their Monthly Anytime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on Nationwide for Business with Share Option may be migrated onto applicable retail consumer pricing or government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing subscribers activated in more than one Verizon Wireless billing system. Sharing among subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing subscriber to the total minutes needed by all sharing subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

Mobile Broadband Router Solution Share Plans: Sharing is available only among Government Subscribers on the Mobile Broadband Router Solution choosing the Share Option. Sharing is only available for data usage (no voice). Each sharing subscriber's unused kilobytes will pass to other sharing subscribers that have exceeded their MB allowance during the same monthly billing period. Customer must maintain a minimum of one hundred (100) Government Subscribers choosing the Share Option on the Mobile Broadband Router Solution Share Plan at all times to qualify; otherwise Verizon Wireless reserves the right to remove the Share Option from all subscribers and/or cease offering the share plan. Unused kilobytes will be distributed proportionally as a ratio of the kilobytes needed by each applicable subscriber to the total kilobytes needed by all sharing subscribers. Plan changes may not take effect until the billing cycle following the change request. Sharing accounts require set up that may take thirty (30) to sixty (60) days.

Verizon Wireless Calling Plan Optional Features

Calling Plans and Associated Charges: Government Subscribers may activate Wireless Service on the calling plans included with this Agreement, as well as eligible Verizon Wireless consumer/retail calling plans, subject to the terms of this Agreement. On Family SharePlan® calling plans, monthly access fee discounts apply only to the primary line of service. Subscribers may take advantage of promotions or purchase Equipment at Government pricing, but this may require a Line Term extension after initial activation. Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access and any activation fees are payable in advance and will not be refunded after activation of the Wireless Service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber first presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call otherwise disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free; however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on calling plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the calling plan's rate and coverage area, unless otherwise specified in the calling plan.

Customer's Cell Phone Number and Caller ID: Verizon Wireless will assign one Mobile Telephone Number ("MTN") to each subscriber line. Other than as required to port an MTN, Customer does not have any property right in the MTN and Verizon Wireless may change, reassign, or eliminate an MTN upon reasonable notice to Customer under certain circumstances, including fraud prevention, area code changes and regulatory or statutory law enforcement requirements.

Unlimited Messaging: Unlimited Messaging is included with the Talk & Text Plans, and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless

customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, and Puerto Rico. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. Messaging bundle benefits do not apply to international messages.

Friends & Family: Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide Family SharePlans with 1400 minutes or more, subscribers can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

Global PC Cards will not work in the United States or Canada and GlobalAccess subscribers will need a NationalAccess or Mobile Broadband PC card for domestic use. The domestic and Global PC Cards cannot be used at the same time. Prior to leaving the United States, subscribers must install GlobalAccess VZAccess ManagerSM and run the OTA wizard. GlobalAccess subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Verizon Wireless reserves the right to terminate the service of any subscriber whose total usage is less than half on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. GlobalAccess internet browsing, email, or intranet access applies to Mobile Broadband and NationalAccess usage within the United States and Canada as well as an allowance of 100MB (\$0.005/KB overage rate) in Tier 1 Countries, and an allowance of 0MB (\$0.030/KB) in Tier 2 Countries. Subscribers to NationalAccess and Mobile Broadband Plans using Global PC Cards may also add GlobalAccess Pay-Per-Use at \$0.002/KB in Canada, \$0.020/KB in Tier 1 Countries, and \$0.030/KB in Tier 2 Countries.

GlobalEmail: GlobalEmail capable equipment required. Verizon Wireless reserves the right to terminate the GlobalEmail service of subscribers that have less than half of their usage on the Verizon Wireless National Enhanced Services Rate and Coverage Area over three consecutive billing cycles. GlobalEmail subscribers must activate and update their Preferred Roaming lists while in the National Enhanced Services Rate and Coverage Area every three months. Text messaging billed at standard domestic and international Text Messaging rates. Existing Verizon Wireless subscribers migrating to GlobalEmail plans may be required to extend their Line Term.

GlobalAccess and Global Email SIM Cards: SIM Cards are available for use only with your Global PC Card, Global Smartphone, or Global Phone, and only for the purposes of speeds to a maximum of approximately 200 kbps. Verizon Wireless is not responsible for any unauthorized use of subscriber's SIM Cards and subscriber must safeguard security codes. Placing your GlobalEmail SIM in any other non BlackBerry or Smartphone device could result in additional charges or termination of service. Upon termination of service, subscriber must destroy SIM Card.

Share Option

Share Option: Sharing is available only among Government Subscribers on applicable calling plans choosing the Share Option.

Nationwide for Business: Sharing Option is for voice Anytime Minutes only. Customer must maintain a minimum of five (5) Government Subscriber lines, all choosing a qualifying plan with Share Option. Verizon Wireless reserves the right to remove the Share Option from all subscribers if the 5 Government Subscriber minimum is not met at any time. Each sharing subscriber's unused Anytime Minutes will pass to other sharing subscribers that have exceeded their Anytime Minutes during the same monthly billing period (Mobile to Mobile Calling minutes and Night and Weekend minutes do not share). Each sharing subscriber's Monthly Anytime Allowance Minutes apply first to that line. Unused Monthly Anytime Minutes are then shared with other sharing subscribers that have exceeded their Monthly Anytime Allowance in order of highest usage. At the termination of the Agreement, Government Subscriber lines on Nationwide for Business with Share Option may be migrated onto applicable retail consumer pricing or government pricing. Calling plan changes may not take effect until the billing cycle following the change request. Based on the geographic location of Customer's Government Subscribers, some Customers may have to have sharing subscribers activated in more than one Verizon Wireless billing system. Sharing among subscribers in multiple Verizon Wireless billing systems requires online invoicing or reporting, and a minimum of one hundred (100) Government Subscribers all choosing the Share Option. Unused minutes for cross billing system sharing will be distributed proportionally as a ratio of the minutes needed by each sharing subscriber to the total minutes needed by all sharing subscribers. Accounts that share across Verizon Wireless billing systems require set up that may take thirty (30) to sixty (60) days.

Mobile Broadband Router Solution Share Plans: Sharing is available only among Government Subscribers on the Mobile Broadband Router Solution choosing the Share Option. Sharing is only available for data usage (no voice). Each sharing subscriber's unused kilobytes will pass to other sharing subscribers that have exceeded their MB allowance during the same monthly billing period. Customer must maintain a minimum of one hundred (100) Government Subscribers choosing the Share Option on the Mobile Broadband Router Solution Share Plan at all times to qualify; otherwise Verizon Wireless reserves the right to remove the Share Option from all subscribers and/or cease offering the share plan. Unused kilobytes will be distributed proportionally as a ratio of the kilobytes needed by each applicable subscriber to the total kilobytes needed by all sharing subscribers. Plan changes may not take effect until the billing cycle following the change request. Sharing accounts require set up that may take thirty (30) to sixty (60) days.

3.5.25 3.6.23	48 72	<p>Define how you will improve coverage to using entity offices (buildings/facilities/sub-ground level offices, etc.) that experience inadequate wireless voice service. Identify all basic equipment provided as necessary for your standard operation within your wireless network. Provide in your cost proposal, any hourly rates or other associated costs for on-site installations that may be necessary.</p> <p><i>Verizon Wireless Response:</i></p> <hr/> <p><i>If you are receiving less than adequate reception in one of your buildings, your Verizon Wireless Account Manager can arrange a survey of your building to determine whether an in-building solution could improve your reception.</i></p> <p><i>Upon completing the survey, your Account Manager can work with you to develop a price schedule and scope of work for the procurement, installation, operation and maintenance of the in-building equipment. These terms would then be incorporated into a separate in-building contract. It is important to note that it may be necessary for Verizon Wireless to acquire necessary leases, permits or zoning changes before implementing some in-building solutions.</i></p> <p><i>The cost and financing of in-building systems is dependent upon several factors, including the complexity of the system, whether a dedicated cell site is necessary for the in-building system, any number of existing or future Verizon Wireless lines associated with such a system, whether the space is publically held or privately, and the number of customers that the in-building system would support.</i></p> <p><i>Verizon Wireless can also work with, or recommend, approved third party in-building providers that can improve coverage in your buildings.</i></p>
