

HENGAMEH ABRAHAM
Businesswoman/Wellness Coach

AGE: 33

As a wife and mother of two small children, our family is proud to call Eastside Costa Mesa our home. Safety and economic well-being are top priorities for all of our families.

As a certified wellness coach, with a degree in Health Sciences from Cal State Fullerton, I have a lifelong commitment to health advocacy. I am also a small business owner and know the economic challenges you are facing as we are facing them as well. I will work to support small businesses and our local economy through economic rebuilding. We can do this safely and in a smart manner.

I will work to address:

Sober living home and homelessness issues.

Our public safety.

Economic rebuilding.

All of these have a cost to them, so we need to build back our economic base so we can keep our quality of life where it should be.

Covid may have devastated our budget but not our spirit.

As an Eastside Costa Mesa family and business owners, we are in this together, and together we can re-build our quality of life.

I respectfully ask for your vote. Reach out to me any time at 949-294-2584 or abraham4cm@gmail.com
