

**LEE RAMOS****Retired Businessman**

As a long time Eastside resident, I understand the values, needs and issues that face District 6. The main issues being homelessness, cut through traffic, group homes, and increased crime. We need to use our limited public dollars to solve these problems.

Today, our city is in a grave financial position due to mismanagement and careless spending. We must reform unsustainable practices for the sake of residents and public employees. We need to protect our fire and police departments so they can protect us. We need to be proactive in addressing the airport issue.

I have a long history of public service with various city and county committees. I continue to serve through Trellis and my church to address the difficult homeless problem. These are uncertain times and no one knows what the future will bring, but financial issues will be at the forefront.

District 6 has the opportunity, for the first time, to be represented directly by a resident that will echo the Eastside's view. I will stand for Costa Mesa while representing our district in a nonpartisan independent manner.

Vote Lee Ramos November 3rd.
