

QUENTIN "Q" PULLEN
Small Business Owner

AGE: 50

I was born in the south in a Christian home where I saw my father, a pastor, give tirelessly to our community. I've spent my life in service to others in some form or fashion because of the values I was taught in my home and in the community where I lived. Joining the Marine Corps taught me not only how to lead, but how to work with diverse groups for a common goal.

My name is Quentin "Q" Pullen and, although I am new to political service, I have been preparing all my life to be in position to represent you as Mayor. I am your neighbor and more than anything I want to help build a stronger community by bringing back civility in the way that we interact with each other. I want to create a local government where all of us as neighbors feel like our voices are being heard, a community where, without a doubt, we have each other's back.

A vote for me is not a vote for a political party but for the ideal that we are stronger as a community when we work together.
