Effects Found Not to Be Significant 7.0

The State CEQA Guidelines, Section 15128 requires that an EIR contain a statement briefly indicating the reasons that possible various significant effects of a project are not analyzed in the EIR. The inclusion of the Initial Study prepared for the project may serve that purpose.

This EIR addresses all impact topic areas identified in the CEQA Checklist (State CEQA Guidelines, Appendix G). The City of Costa Mesa did not prepare an Initial Study to focus the scope of the EIR analysis.
